

ARKANSAS TOBACCO SETTLEMENT COMMISSION: IMPROVING THE HEALTH OF ARKANSANS

THE ATSC PROGRAMS: ST. FRANCIS COUNTY

Through the years, Arkansas has been the only state to use 100% of its funding from the Tobacco Master Settlement Agreement to improve the health of its citizens. While other states have used MSA funds for various projects, Arkansans voted to dedicate all of these dollars to funding, addressing, and improving health in our state.

Over a three-year period, **St. Francis County** received a total of **\$1,703,299** from these programs. Below is a breakdown of funding for St. Francis County by each program.

TOBACCO PREVENTION & CESSATION PROGRAM

TPCP has several components aimed at reducing tobacco use by Arkansans. TPCP is charged with developing and implementing a statewide, comprehensive tobacco education, prevention and cessation program. St. Francis County had use of a regionally funded Health Nurse Specialist and a Health Promotion Specialist, valued at \$128,750 in addition to \$225,000 in funded grantees.

UAMS COLLEGE OF PUBLIC HEALTH

The CPH aims to meet the public health workforce needs for the future and demonstrate how public health approaches can address the health needs of Arkansans via model community programs. Overall, the College of Public Health has brought \$93,919,420 in funding to the state of Arkansas. Three students from St. Francis County were enrolled at one of the CPH campuses.

DELTA AREA HEALTH EDUCATION CENTER

The Delta AHEC mainly works within seven counties in east Arkansas, providing health education services to residents. Collectively, \$8,636,055 in funding has been provided in this delta region of the state. Of that, \$384,170 in services have gone to St. Francis County.

ARKANSAS BIOSCIENCES INSTITUTE

The ABI is an agricultural and medical research consortium dedicated to improving the health of Arkansans. ABI work has created 610 full-time jobs in Arkansas. Three students from St. Francis County were enrolled at an ABI campus in the past three years. Additionally, ABI has brought \$87 million in matching grant and research funds into the Arkansas economy.

ARKANSAS AGING INITIATIVE

The AAI aims to improve health outcomes of Arkansas seniors residing in rural areas through interdisciplinary clinical care and innovative education programs. St. Francis County received \$145,454 in funding and serviced 21,827 people in a three-year period.

MINORITY HEALTH INITIATIVE

MHI focuses on minimizing health disparities among minorities within Arkansas. MHI has provided contracts, health fairs and outreach to St. Francis County valued at \$23,294 during this three-year period.

MEDICAID EXPANSION PROGRAM

MEP is a separate and distinct component of the Arkansas Medicaid program that aims to improve the health of Arkansans by expanding health care coverage and benefits to specific populations, beyond traditional Medicaid coverage directed at Arkansas seniors, pregnant women, and individuals 19-64 without health insurance. A total of \$796,631 was provided to St. Francis County through these services over this same timeframe.
